

Stain Defenders with DIAMOND SEAL SYSTEM® will help improve your quality of life.

What is DIAMOND SEAL SYSTEM?

DIAMOND SEAL SYSTEM is a series of Nano-engineered protective sealing and maintenance products designed to protect virtually every architectural surface in the home against environmental contaminants that would otherwise damage the surface or promote bacterial and viral growth. While the environmentally-friendly “Green” maintenance products clean, shine and rejuvenate the treated surface with each use.

Treat Your Tile: Permanent marker on a DIAMOND SEAL SYSTEM-treated tile wipes off easily.

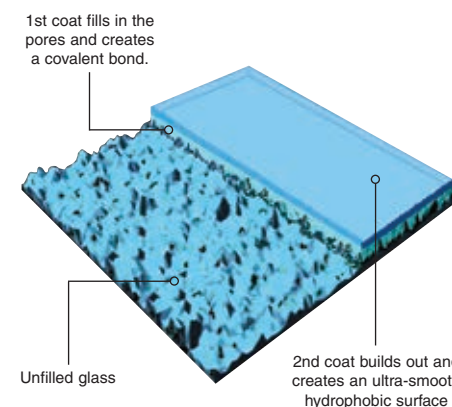

Treat Your Glass: DIAMOND SEAL SYSTEM-treated glass stays cleaner, optically clearer and resists the damage caused by harsh chemicals and environmental contaminants.

Why is it important to protect your surfaces?

Glass, stone, metal and other architectural materials all have microscopic pores that collect contaminants such as water, dust, oil, salt, mildew and bacteria (e-coli). Over time your surfaces corrode, oxidize and stain, which provides a breeding ground for bacteria and destroys the new look of the material. Once these contaminants penetrate the pores of the surface, they are difficult to remove. When everyday household cleaning products are used, the harsh chemicals they contain enlarge the surfaces’ pores even further. This continuously damages your surfaces making them old, worn and greatly diminishing their original luster.

How does DIAMOND SEAL SYSTEM work?

DIAMOND SEAL SYSTEM works with the natural structure of the surface material to fill in the microscopic pores and chemically bond itself to the surface. The treated surfaces become highly repellent to contaminants (Super-Hydrophobic – water & oil resistant) and Ultra-Hygienic (Sterile), protecting your surfaces from irreversible damage and significantly diminishing the capacity for virus causing bacteria and mold to live, breed and migrate. Regular maintenance with our environmentally-friendly and “Green” products, kill virus causing bacteria, leaves no residue and rejuvenates the protective properties with every use. **Treated surfaces stay cleaner and longer; reducing maintenance cost and effort up to 70%.**

Lotus effect

“Green” means more than just saving the planet.

Maintenance Information

By choosing a Diamond Seal System coating, you have simplified the cleaning process for years to come, which includes a limited lifetime warranty. Below you can select.

Glass Showers – Once a week, wipe down your glass surface and all of your fixtures including faucets, frames etc. with a microfiber towel and a few sprays of Diamond Blue Wash while the glass is wet. Right after a shower is a great and convenient time to do this. This is all you will need to do to keep your shower looking new and streak free!

Wood Floors & Cabinets - Once a week, wipe down your wood surfaces with a microfiber towel and a few sprays of Diamond Blue Wash. This is all you will need to do to keep your Wood Floors & Cabinets looking new, brilliant and streak free!

Windows - Once a month, wipe down your glass surface with a microfiber towel and a few sprays of Diamond Blue Wash. This is all you will need to do to keep your windows looking new and streak free!

Appliances - Once a week, wipe down your appliances with a microfiber towel and a few sprays of Diamond Blue Wash. This is all you will need to do to keep your appliances looking new, brilliant and streak free!

Countertops - Once a week, wipe down your appliances with a microfiber towel and a few sprays of Diamond Blue Wash. This is all you will need to do to keep your countertops looking new, brilliant and streak free!

Tubs & Toilets - Once a week, wipe down your appliances with a microfiber towel and a few sprays of Diamond Blue Wash. This is all you will need to do to keep your tubs & toilets looking new, brilliant and streak free!

Sinks & Fixtures - Once a week, wipe down your appliances with a microfiber towel and a few sprays of Diamond Blue Wash. This is all you will need to do to keep your sinks & fixtures looking new, brilliant and streak free!

Warranty Information - All surfaces that have been treated with a Diamond Seal System coating is covered by a limited lifetime warranty. To keep this warranty in affect, you must follow the above maintenance recommendations and only use Diamond Seal System products. By following the maintenance recommendations your surfaces are protected for life and will not break down.

Create a clean safe environment for your family without toxic, hazardous chemicals.

GREEN FACTS

- The average American uses 25 gallons of “TOXIC” chemicals per year in their home.
- The cumulative effects of these chemicals are linked to Asthma, ADD, Autism, Allergies, Birth Defects, Cancer and more.
- The EPA estimates that indoor air can be up to 100 times more polluted than outdoor air.
- 90 percent of all accidental poisonings occur in the home. More than 7 million cases each year, which the majority of is the consumption of household cleaners by young children.

What if you could keep all of the surfaces in your home looking new?

Protect your home, your family and the environment the Stain Defenders™ way.
Live “Green” and chemical-free!

Stain Defenders™ expert technicians will treat all of these surfaces in your home.

Countertops

From kitchens to bathrooms, turn your countertops into a stain resistant and Ultra-Hygienic surface. By applying the DIAMOND SEAL SYSTEM™ coating, the surface instantly becomes easier to clean and will be protected against environmental contaminants such as germs and bacteria.

- Becomes water, oil and stain resistant
- Easy, streak-free cleaning
- More hygienic
- Residue-free
- Preserves original luster

Appliances

Give your appliances and even your outdoor barbeque the power to shine. From stainless steel refrigerators to glass or porcelain cook tops, your treated appliances will be easier to clean than ever.

- Easy, streak-free cleaning
- Reduces the appearance of fingerprints
- More hygienic
- Preserves original brilliance

Cabinets

Keep your cabinets looking new! Treating your cabinets with DIAMOND SEAL SYSTEM protects, preserves and enriches the original finish by repelling water, oils and dust while reducing the appearance of fingerprints.

- Becomes water, oil and stain resistant
- Reduces the appearance of fingerprints
- Becomes anti-static and dust repellent
- Preserves natural/factory finish

Hardwood Floors

Protect the most expensive and used surface in your home. Stain Defenders can bring out the rich colors to your hardwood floor or laminate and eliminate the need to use cleaners or polishes which leave wood floors looking dull and dirty.

- Floors become more slip resistant
- Becomes water, oil and stain resistant
- Cleans naturally without leaving bio-residue or heavy build-up
- Preserves natural/factory finish

Sinks & Fixtures

Let Stain Defenders shield your Sinks & Fixtures from ugly water spots and soap scum by treating them with a DIAMOND SEAL SYSTEM coating. With hardly any maintenance, these surfaces will stay brilliant and shine for years to come.

- Virtually eliminates water spots, soap scum and staining
- Porcelain sinks become more stain and scratch resistant
- More hygienic
- Fixtures stay looking brilliant and clean while resisting oxidation and corrosion

Windows

Having DIAMOND SEAL SYSTEM-treated windows reduces your maintenance cost and effort up to 70%. Treated windows are easier to maintain, will stay cleaner, longer and are protected from the damage caused by environmental contaminants, for life!

- Virtually eliminates water spotting
- Becomes anti-static and dust repellent
- Reduces cleaning cycles
- Improves visual clarity

Tubs & Toilets

A DIAMOND SEAL SYSTEM treatment to your bathroom will keep your porcelain and fiberglass bath fixtures clean and more hygienic. Water spots, soap scum and stains will be a thing of the past. Clean less often and without harsh chemicals.

- Resists water spots, soap scum, and staining
- No more tub or toilet rings to scrub
- More hygienic
- Eliminates the need for harsh chemicals

Showers

NO MORE SQUEEGEES, EVER! With a DIAMOND SEAL SYSTEM-treated shower, your glass enclosures, metal trim and tile/stone becomes a cinch to clean. Watch as your glass stays clean, clear and spot-free.

- Virtually eliminates water spots, soap scum and staining on glass
- Glass simply wipes clean
- Metal trim becomes corrosion resistant
- Tile/stone becomes stain resistant to ugly mildew and soap stains
